

LESSON PLAN

Name of School: Maendeleo Sec. **Teacher's Name:** Gungamoto, J.
Form: I **Subject:** Computer Science
Time: 11:00 – 11:40 am **Date:** 28-06-2026

Number of Students					
Registered			Present		
Girls	Boys	Total	Girls	Boys	Total
7	8	15	7	7	14

Main Competence: Demonstrate mastery of the basic Concepts of Computer Science

Specific Competence: Demonstrate an understanding of the concept of Computer Science

Main Learning Activity: Describe the concept of Computer Science (meaning, importance, application)

Specific Learning Activity: Describe the concept of Computer Science (meaning, importance, application)

Teaching and Learning Resources: Handouts with contents of Computer Science concepts

Teaching and Learning Process

Stages	Time (Minutes)	Teaching Activities	Learning Activities	Assessment Criteria
Introduction	05	Displaying a picture of a Handouts with contents of Computer Science. Asking students questions about the concept of Computer Science (meaning, importance, application). (What do you see? Why do we use Handouts with contents of Computer Science?)	Observe the image and respond to questions on the concept of Computer Science (meaning, importance, application).	Questions about the concept of Computer Science (meaning, importance, application) are answered.
Competence Development	20	Provide students with Handouts with contents of Computer Science equipment and ask them in groups to discuss and share functions. Display a video with different the concept of Computer Science (meaning, importance, application). In pairs, identify the concept of Computer Science (meaning, importance, application) from video.	Discuss and share their functions of Handouts with contents of Computer Science equipment. Watch & identify the concept of Computer Science (meaning, importance, application) from video.	Functions of Handouts with contents of Computer Science equipment explained. The concept of Computer Science (meaning, importance, application) identified.
Design	10	Ask students in groups to name a type/idea and identify the concept of Computer Science (meaning, importance, application) they adhere to when understanding the idea.	Name a type/idea and identify the concept of Computer Science (meaning, importance, application).	The concept of Computer Science (meaning, importance, application) in a named type/idea are identified.
Realisation	05	Each student picks a card with a specific name based on what they see and explains the the concept of Computer Science (meaning, importance, application) to adhere.	Pick a card and explain the the concept of Computer Science (meaning, importance, application) from what they see.	The concept of Computer Science (meaning, importance, application) of each are explained.

Remarks: The students were able to explain the concept of Computer Science (meaning, importance, application) due to the use of interactive teaching and learning methods, activities and resources. However, some students failed to differentiate the concept of Computer Science (meaning, importance, application) for different types or ideas. Therefore, I will clarify it next period.
